

HELPING MAKE COMMUNITY

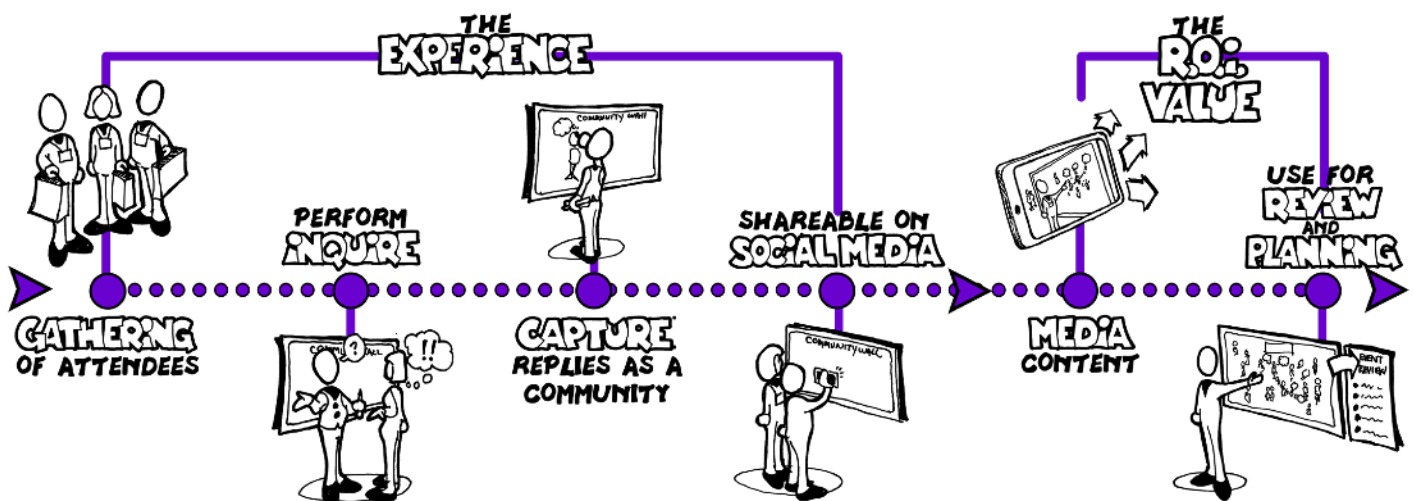

CAPTURE THEIR IDEAS

Over the many years of working with Visual Facilitation and Visual Translation for gatherings from Leadership meetings to Conferences, I know that meeting participants and event attendees are energized by visuals. Community Boards and Walls have become a highlight for attendees. The reason is the technique let's their voices matter and their ideas become part of the content of the gathering. I help co-create an experience that is memorable and shareable.

Attendees want more. They want to be part of your event and engaging them in this creative process does just that. Community Boards and Walls are the staging of a unique and engaging experience they will never forget.
